

## Welcome to Wulf Johanssen!

As an independent service provider, Wulf Johanssen is your trusted partner for the repair and overhaul of marine diesel engines and pumps, components, turbochargers, marine gearboxes, and fuel injection pumps.

### ➔ Overview of Our Service

- Minor and major engine overhauls
- Complete engine reconditioning
- Precision crankshaft grinding
- Metal spraying and resurfacing of engine blocks and cylinder heads
- Full cylinder head reconditioning
- Honing of cylinder liners (including on-site service)
- Fuel injection pump service and injector testing
- Repair and replacement of turbochargers
- Worldwide supply of spare parts, engines, and pumps

### ➔ Global Service

Our experienced service team provides on-site diesel engine repair services worldwide.

### ➔ Engine Repowering and New Engine Installations

Whether you're planning a repowering project, a new engine installation, or the renewal of onboard generators and pumps – our team will be pleased to support you. Contact us for expert advice!

### ➔ Machining Services

In addition to machining engine and pump components, we also manufacture and process small production runs, custom parts, and prototypes.

### ➔ Global Spare Parts Service

We supply all types of spare parts worldwide – including maintenance kits, exchange and new engines, gensets, pumps, and cylinder heads.

We specialize in sourcing spare parts for diesel engines from the following manufacturers:

- Caterpillar
- Cummins
- Deutz/MWM
- MaK
- MAN
- Mercedes-Benz
- Mitsubishi
- MTU
- Scania
- Wärtsilä

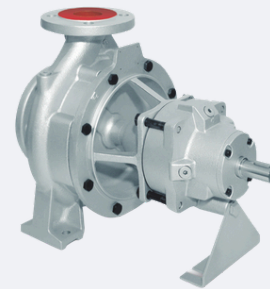

## Engines We Work On Include:

- Cummins: QSK 19 bis QSK 95, QST 30
- MAN: 2540, 2840, 2842, 2866, 2876
- Everllence (Ex-MAN): 4-stroke series
- MaK: M20, M25, M32, M43, M282, M332, M452, M453
- Deutz/MWM: 440 bis 645
- Mercedes-Benz: OM 422, 441, 442
- Caterpillar: 3400, 3500, 3600
- Mitsubishi: S6R, S12R, S16R, SU series
- MTU: Serie 183 bis 4000
- Wärtsilä: L20, L26, L46, R32
- Naturally, we also service engines from other manufacturers – including compact units up to 200 kW. We'll be happy to advise you!

## Your Partner for Marine Pumps and Component

As a certified sales and service partner for CIRCOR | Allweiler, we offer you the full range of services. We overhaul pumps and components, supply spare parts, and provide new pumps and system components.

## Services for Components

We grind crankshafts up to a length of 6,200 mm and a swing diameter of up to 900 mm. Sealing and mating surfaces on engine blocks, frames, cylinder heads, and pump housings are reconditioned using cold spray technology. In addition, we offer a wide range of services for all engine components – feel free to contact us!

## Our Locations

From our service locations in Kiel and Bremen, our technicians are dispatched directly to your site – anywhere in the world. Full Engine, pump, and component overhauls are carried out at our workshop in Kiel-Wellsee.
